## NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2002

### 1. Incorporation and principal activities

#### Country of incorporation

The Company The Russian Orthodox Church "St. Nicholas" Fund Limited ("The Fund") was incorporated in Cyprus on 12 August 1997 as a company not having a share capital limited by guarantee under the Cyprus Companies Law, Cap. 113. Its registered office is at 284, Arch. Makariou III Ave., Fortuna Court, Block B, 3105, Limassol, Cyprus.

#### Legal status and principal activities

The Fund is limited by guarantee without share capital up to the amount of €1.000.

The principal activity of The Fund, which is unchanged from the previous year, is the construction, operation and maintenance of the Russian Orthodox Church "St Nicholas" in Limassol.

### 2. Accounting policies

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented in these financial statements unless otherwise stated.

#### Basis of preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union (EU) and the requirements of the Cyprus Companies Law, Cap.113. The financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates and requires Management to exercise its judgment in the process of applying The Fund's accounting policies. It also requires the use of assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on Management's best knowledge of current events and actions, actual results may ultimately differ from those estimates.

#### Revenue recognition

Income from received donations is credited to the Statement of Income and Expenses in the year in which they relate to. Other income earned by The Fund is recognised on the following basis:

- **Interest income**

Interest income is recognised on a time-proportion basis using the effective interest method.

#### Finance costs

Interest expense and other borrowing costs are charged to surplus or deficit as incurred.

## NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2002

### 2. Accounting policies (continued)

#### Foreign currency translation

(1) **Functional and presentation currency**

Items included in The Fund's financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in United States Dollars (US\$), which is The Fund's functional and presentation currency.

(2) **Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in surplus or deficit.

#### Tax

The Fund is categorised as a non-profit making organisation and hence it is not subject to corporation tax.

#### Property, plant and equipment

Property, plant and equipment are stated at historical cost. The cost of fixed assets represents their purchase cost together with any incidental costs of acquisition.

The chapel is prefabricated wooden building which has been imported from Russia and set up on the land donated by the Archbishop of Cyprus. The chapel is not depreciated.

Expenditure for repairs and maintenance of property, plant and equipment is charged to surplus or deficit of the year in which it is incurred. The cost of major renovations and other subsequent expenditure are included in the carrying amount of the asset when it is probable that future economic benefits in excess of the originally assessed standard of performance of the existing asset will flow to The Fund. Major renovations are depreciated over the remaining useful life of the related asset.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in surplus or deficit.

#### Financial instruments

Financial assets and financial liabilities are recognised in The Fund's statement of net assets when The Fund becomes a party to the contractual provisions of the instrument.

#### Cash and cash equivalents

For the purpose of the statement of cash flows, cash and cash equivalents comprise cash at bank and in hand.

## NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2002

### 2. Accounting policies (continued)

#### Derecognition of financial assets and liabilities

##### Financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- The Fund retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a 'pass through' arrangement; or
- The Fund has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

##### Financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires.

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in surplus or deficit.

#### Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to depreciation or amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units).

#### Offsetting financial instruments

Financial assets and financial liabilities are offset and the net amount reported in the statement of net assets if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. This is not generally the case with master netting agreements, and the related assets and liabilities are presented gross in the statement of net assets.

## NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2002

### 3. Financial risk management

#### Financial risk factors

The Fund is exposed to interest rate risk, credit risk, liquidity risk and currency risk arising from the financial instruments it holds. The risk management policies employed by The Fund to manage these risks are discussed below:

#### 3.1 Interest rate risk

Interest rate risk is the risk that the value of financial instruments will fluctuate due to changes in market interest rates. Borrowings issued at variable rates expose The Fund to cash flow interest rate risk. Borrowings issued at fixed rates expose The Fund to fair value interest rate risk. The Fund's Management monitors the interest rate fluctuations on a continuous basis and acts accordingly.

At the reporting date the interest rate profile of interest-bearing financial instruments was:

	<b>2002</b>	2001
	<b>US\$</b>	US\$
<b>Variable rate instruments</b>		
Financial assets	<u><b>352.574</b></u>	<u>334.427</u>
	<u><b>352.574</b></u>	<u>334.427</u>

#### Sensitivity analysis

An increase of 100 basis points in interest rates at 31 December 2002 would have increased/(decreased) surplus or deficit by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. For a decrease of 100 basis points there would be an equal and opposite impact on the surplus and net assets.

	<b>Surplus or deficit</b>	
	<b>2002</b>	2001
	<b>US\$</b>	US\$
Variable rate instruments	<u><b>3.526</b></u>	<u>3.344</u>
	<u><b>3.526</b></u>	<u>3.344</u>

#### 3.2 Credit risk

Credit risk arises when a failure by counter parties to discharge their obligations could reduce the amount of future cash inflows from financial assets on hand at the statement of net assets date. The Fund has no significant concentration of credit risk. The Fund has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history and monitors on a continuous basis the ageing profile of its receivables. Cash balances are held with high credit quality financial institutions and The Fund has policies to limit the amount of credit exposure to any financial institution.

#### 3.3 Liquidity risk

Liquidity risk is the risk that arises when the maturity of assets and liabilities does not match. An unmatched position potentially enhances profitability, but can also increase the risk of losses. The Fund has procedures with the object of minimising such losses such as maintaining sufficient cash and other highly liquid current assets and by having available an adequate amount of committed credit facilities.

## NOTES TO THE FINANCIAL STATEMENTS

Year ended 31 December 2002

### 3. Financial risk management (continued)

#### 3.4 Currency risk

Currency risk is the risk that the value of financial instruments will fluctuate due to changes in foreign exchange rates. Currency risk arises when future commercial transactions and recognised assets and liabilities are denominated in a currency that is not The Fund's measurement currency. The Fund is exposed to foreign exchange risk arising from various currency exposures primarily with respect to the Cyprus pounds. The Fund's Management monitors the exchange rate fluctuations on a continuous basis and acts accordingly.

The carrying amounts of The Fund's foreign currency denominated monetary assets and monetary liabilities at the reporting date are as follows:

	<b>Assets</b>	
	<b>2002</b>	2001
	<b>US\$</b>	US\$
Cyprus Pounds	<u><b>22.598</b></u>	<u>5.929</u>
	<u><b>22.598</b></u>	<u>5.929</u>

#### Sensitivity analysis

A 10% strengthening of the United States Dollars against the following currencies at 31 December 2002 would have increased (decreased) surplus or deficit by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant. For a 10% weakening of the United States Dollars against the relevant currency, there would be an equal and opposite impact on the surplus and net assets.

	<b>Surplus or deficit</b>	
	<b>2002</b>	2001
	<b>US\$</b>	US\$
Cyprus Pounds	<u><b>(2.054)</b></u>	<u>(539)</u>
	<u><b>(2.054)</b></u>	<u>(539)</u>

#### Fair value estimation

The fair values of The Fund's financial assets and liabilities approximate their carrying amounts at the statement of net assets date.
